ABDUL BARCKY ARIMIYAO

Frontend Developer | Software Developer

Portfolio: https://abdulbarcky.com

Email: hello@abdulbarcky.com

Location: Ghana

PROFESSIONAL SUMMARY

Highly disciplined Software Developer with a unique global background in international logistics. Upon returning from Dubai, I pivoted into a dedicated immersion into modern Frontend Engineering. Specializing in the Next.js ecosystem, I focus on building refined digital solutions through intensive independent research and architectural precision. Currently expanding my expertise into Full Stack development and backend systems.

CURRENT FOCUS

Mastering Backend & Systems Engineering (Node.js, Fastify, Express, PostgreSQL). Building high-performance server-side logic and scalable database architectures to bridge the gap into Full Stack development.

EXPERIENCE

Frontend Developer | Self-Taught / Freelance

2025 - Present

- Mastered modern full-stack engineering through self-directed study and project architecture.

- Building high-performance applications using the Next.js ecosystem (React, TypeScript, Supabase).

- Focused on clean, maintainable code and UI/UX excellence.

Warehouse Associate | Amazon (Dubai, UAE)

2021 - 2025

- Managed high-volume international logistics and operations in Dubai.

- Focused on operational efficiency and professional excellence in a fast-paced global environment.

- Developed the core discipline and work ethic that now drives my engineering career.

TECHNICAL EXPERTISE

Frontend Architecture: React, Next.js, TypeScript, Tailwind CSS, Framer Motion, GSAP

Backend & Emerging Systems: Node.js, Express, Fastify, PostgreSQL, Supabase Integration

Development Workflow: Git, GitHub, Vercel, Web Core Vitals, Responsive Design

EDUCATION

Kwaobaah-Nyanoa Senior High School | WASSCE (2019)

Mepom Methodist JHS | BECE (2016)

COINDARKS | Next.js, TypeScript, Supabase, Coingecko API

- Engineered a professional-grade crypto-to-fiat exchange platform for the African market.

- Implemented "Quantum" settlements and bank-grade security for enterprise-level transactions.

http://coindarks.com/

CRAVE XPRESS | Next.js, React, Supabase, Framer Motion

- Developed a premium, full-stack restaurant delivery platform with a dynamic "Culinary Gallery."

- Built real-time order management and a responsive UI designed to bridge local traditions with digital convenience.
